**2460** Drug Product Images

**NEW**

AusDI Advanced is a comprehensive, authoritative, unbiased source of drug and therapeutic information developed for pharmacists, medical practitioners, nurses, students and other health care professionals.

Designed to give you convenient web-based access to multiple sources of reliable drug product information, AusDI Advanced includes full text, evidence-based drug, drug-class and complementary drug product monographs developed independently of pharmaceutical company influence, product information (PI), and consumer medicine information (CMI) leaflets and drug product images with fully searchable attributes.

### Editorial Process

All content in AusDI Advanced drug product monographs is developed according to strict editorial guidelines by our qualified editorial pharmacists. It complies with a rigorous quality assurance and review process under the guidance of our Editorial Advisory Committee.

### Phoenix Partners
