- Drug information centres:
  - National organisations and government departments
  - Drug company abbreviations and contact information
- Includes Calculators (Adult creatinine clearance, body mass index, body surface area, ideal bodyweight)

### ABOUT AUSTRALIAN MEDICINES HANDBOOK

The philosophy of the AMH is to use the best available evidence to support prescribing and dispensing recommendations.

The purpose of the AMH is two-fold: firstly, to provide a readily accessible, concise, up-to-date source of independent drug information to facilitate effective, rational, safe and economical prescribing and dispensing; secondly, to provide an educational tool for practitioners and students.
